Employment History

Software Engineer - iOS (2015 - Present) @Phunware — Austin, TX
Working as part of Services Development team in several projects including DH Compass, FLL Airport, Moviefone, YVO Mall.

Working as lead iOS Engineer on DH Compass, Houston Methodist Hospital, YVO Mall, FLL Airport and Oscar Grand Stores.

Independent iOS Developer(2011–Present) @ Independent — Austin, TX
Working as a iOS engineer with focus on writing iOS clients. Some of the projects include: TalentSity, DOWN, Y55 Happy, Clarify Health, RoverShield.

iOS Developer (2011 - 2015) @ Bnei Baruch USA — McAllen, TX
Worked as lead iOS engineer on KabbalahApp, Torah Portion, JTimes, Jewish Holidays and Kabbalah Quiz.

Co-Founder (2005–2011) @ VisualNoise — Monterrey, Mexico
Started graphic and web design studio. Some work featured on DesignWeek Monterrey. Led and managed a team of Graphic Designers and Web Developers on integrated campaigns, promotional ads, branding and web design projects.

Experience

Products
Lead iOS Engineer for several products including DH Compass, FLL Airport and Moviefone. Responsible for implementing best practices, code reviews and improving our overall CI environment.

Designed and developed KabbalahApp, Torah Portion, JTimes, Jewish Holidays, Kabbalah Quiz for Bnei Baruch USA.

I also worked with web developer and designer to create Y55Happy, an iOS client for Y55 startup and creating a happiness training app. Working on Hippo, an iOS client that rewards you for your day to day activities and defines a new way of how you reach your goals and suggest options when you don't.

Programming
I have been developing iOS apps since 2011. I am a self-taught developer with a firm belief in open source and collaboration. I have over 20 open source projects on Github. I have experience in UIKit, MapKit, CoreData, Core Libraries, Blocks and GCD.

Education

Mobile Makers Academy - Mar 2015 - May 2015
